country for possible bioterrorism attacks, FDA is working with other federal agencies to make sure adequate supplies of medicine and vaccines are available to the American public.

Bioterrorism and Drug Preparedness | FDA

Preparedness for bioterrorist attacks and early recognition of specific agents are

Read Free Bioterrorism Guidelines For

essential for public health. Emergency departments may play an important role in this field. The large spectrum of bioterrorism involves not only disastrous terrorism with mass casualties, but also microevents using low technology but producing civil unrest, disruption, disease, disabilities, and death.
