Craftsman 109 metal lathe turning and drilling 109-20630

So with that out of the way, I should also say I've researched
ALOT on the ins/outs of the 109, so no need to go in to that with
me. I'm posting because I'm really a lathe novice, and I've
recently discovered an old 109 locally. Here it is: Craftsman

...

Your lathe is the Craftsman "80" model 109.20630 that is in the Sears 1948 tool catalog, priced at \$41.50. That was the model Sears sold just before the one my dad bought me in 1954, about a year after buying a Sears wood lathe for me. The metal lathe came right after my 8th Grade shop class let me try my luck on a 9" South Bend.

New guy, new lathe, new questions. - Practical Machinist 109.20630, from around the mid 50's. Several web sites list it as being manufactured by Dunlap, As you can see, it needs a little work and a few parts. Other than that it is in good shape. The other picture is a comparison with the little 7 x 14 Asian lathe. The import is a lot more durable lathe and weighs a lot more too.
