Waldo wrote: † Thu Apr 25, 2019 12:49 pm I can't think of any reason at all that TPMS would affect the Advancetrac. They are totally separate systems that don't even use the same modules. Could just be that during the change they bumped something like a wheel speed sensor that "fixed" it, or could be that one or more of your winter tires are differently sized (more worn) than the others.
