CONNECTS WITH UP TO FOUR ENGINES - VesselView Mobile displays key data for up to four engines on your iOS or Android smartphone or tablet. KNOW WHAT'S GOING ON - Accurately monitor true engine running hours and know ahead of time when an engine is due for a regular maintenance interval.

Mercury VesselView Mobile - Connected Boat Engine System ...

Multi-point injection (MPI) systems inject fuel at each cylinder, allowing much greater control over how much fuel the engine burns. In MPI systems, the injection generally takes place directly inside the cylinder's intake valve. Types of MPI Systems Depending on how the injection is handled, MPI systems fall into several types.

What Does MPI Mean on a Car? | It Still Runs

Mercury's Engine Guardian continually monitors critical sensors for any sign of a problem and immediately takes action, while the water-cooled Cool Fuel delivery system on the 8.2L Inboard engine prevents vapor lock. Rugged construction, including stainless-steel exhaust, ensures long-term, hassle-free operation.

Mercury® MerCruiser® Inboards | Mercury Marine

The Engine Guardian System monitors the critical sensors on the engine for any early indications of problems. The system will respond to a problem by emitting a continuous beep and/or reducing engine power in order to provide engine protection. If Guardian System has been activated, reduce throttle speed.
